

Dear colleagues and partners,

In recent days and weeks, as promised, we have been communicating with many of you to determine whether April 30 is a feasible deadline for providers to submit the *ILS-195 Report* and the *Performance Measures Progress Report*, and for counties to submit their *Annual Financial Reports*. We have determined that the date is not feasible for many of you; and therefore we have extended the filing deadline for all three of these reports to **Monday, June 1, 2020**.

We appreciate your efforts, under trying circumstances, to produce these reports. We look forward to utilizing the data and information they provide toward our collective goal of building a system of public (criminal and parental) defense of which we and all New Yorkers may be proud.

Bill
